

ELPA and DECISION present:

First online patient event of the DECISION project on 31st August 2020, 16:00-17:00h

Organizing committee:

- Marko Korenjak, ELPA President
- Veronika Všetickova, ELPA Office Manager
- Dr. Ameli Schwalber, concentris research management GmbH, dissemination manager DECISION, Germany
- Prof. Dr. Pierre-Emmanuel Rautou, professor of hepatology at AP-HP, Inserm and University of Paris, France, coordinator and principal investigator DECISION, EF Clif, Barcelona, Spain

on behalf of the DECISION consortium.

Register with your name and e-mail address: office@elpa.eu

Dear representatives of the national patients associations,

We kindly invite you for the first online patient event of the DECISION project, on Monday 31st August 2020, 16:00-17:00h CEST, available via <https://us02web.zoom.us/j/85020575720>

Find the program of this online patient event below.

In the DECISION project, led by Prof. Dr. Pierre-Emmanuel Rautou (AP-HP / Inserm / University of Paris / European Foundation for the study of chronic liver failure), 21 European institutions join forces to tackle end-stage liver disease and liver failure with a systems medicine approach. Over the next 5.5 years, the DECISION research consortium will analyse and integrate data from already existing clinical cohorts and biological samples from 2,200 patients with cirrhosis at more than 8,600 time points to identify novel combinatorial therapies, validate them in animal models, and then test the most promising combinatorial therapy in a clinical trial. The overall aim of the DECISION project is to prevent acute-on-chronic liver failure (ACLF) and to significantly reduce the mortality rate amongst patients with decompensated cirrhosis. The project receives 6 million € funding from the European Commission.

We would like to inform you on this project, the European multicenter clinical study within this project and discuss with you the impact on patients with cirrhosis and any questions you may have in this regard. We look forward to meeting you virtually on 31st August!

*Prof. Dr. Pierre-Emmanuel Rautou, principal investigator
Dr. Ameli Schwalber, dissemination manager*

Programme:

Chair: Marko Korenjak

16:00-16:05	Welcome and introduction – Marko Korenjak
16:05-16:20	The DECISION project – Pierre-Emmanuel Rautou
16:20-16:30	“COMBAT-trial”, the clinical trial nested in the DECISION project – Paolo Caraceni
16:30-16:40	Impact of DECISION from a patient perspective – Sara Montagnese
16:40-16:55	Discussion moderated by Marko Korenjak
16:55-17:00	Wrap-up – Marko Korenjak
